VIDEO VOICEMAIL

Bringing voicemail into the video age.

RESTORATION SERVICES

VIDEO VOICEMAIL HELPS CUSTOMERS SHARE AND CAPTURE THE AFFECTED AREAS BEFORE YOU ARRIVE.

Improve your home restoration service with a Video Voicemail greeting that encourages customers to record a video showing water, fire, storm, or other property damage and affected areas. Receive both video and audio, giving your team a clearer understanding of the damage before arriving, helping your restoration team prepare and respond faster.

WHAT CUSTOMERS CAN RECORD

- Affected rooms
- Ceiling or wall damage
- Flooring conditions
- Water visible from a safe location
- Smoke discoloration
- Ground-level storm damage

OPTIONAL TREE BOX CATEGORIES

- Water damage
- Fire and smoke
- Storm damage
- Mold concerns
- Contents restoration
